
Book Conclusion and Mission of FtakAristarchy promoters

The FTAKA Reformation

From fake Pax Britannica, fake Pax Americana and fake Pax Judaica, to real Pax Ellinica

The 30 reforms of **Part 2**, in **A)**, **B)** and **C)** of FtakAristarchy, as listed in page 18, are to be used in a cumulative way in order to achieve full FtakAristarchy. The **A)** section reforms are absolutely essential to be used all together to start with as soon as there is a consensus through a referendum to change the constitution for their purpose. The **B)** section reforms can be easily implemented in a matter of one single electoral mandate of 3 years, while implementing the necessary administrative changes to the existing bureaucracy in the short term. The **C)** section reforms require more time, and they can be implemented progressively as soon as possible, but pursued strongly as firm necessary objectives for the full implementation of FtakAristarchy.

In FtakAristarchy, citizens necessarily all vote to maintain citizenship, and have best possible **“Full-Truth-All-Knowledge”** available about everything, while having **Full Freedom of Opinion** even for hate speech, having no public debt, and public money in **Full Transparency** as their own bank account. In this way, **We The Enlightened People** are in full command. Government officials become our best possible public servants. If we also reject all diktats from all supranational unelected and unaccountable organizations, we do not interfere in any foreign affairs, not even for humanitarian reasons having nothing to do with our nations, and we pursue Kallos beauty in all activity, **We The Enlightened People** will soon have the best possible social harmony in the national environment. In the meantime, the fully binding electoral contract becomes transitorily a priority constitution addendum, because all citizens obligatorily voted for it, in full majority, and in a perfect fraud less way. Consequently, no court, not even a constitutional one, can stop its full implementation during that current electoral mandate. Using the death penalty sentence for knowingly or logically causing massive deaths or damages, few people will commit such serious crimes, not even indirectly through useless wars abroad, and certainly not either directly through typical evil tools or deceitful means like the fake COVID vaccine bioweapons. Overall, we will have gone **“From Slavery Downwards to Slavery Upwards”** with a more moral behavior of citizens and leaders. We will have recuperated our full liberty, rendering the current national and globalist cabals incapable of enslaving us in any way, like they do it today just too easily.

With the implementation of the 30 reforms, we will have a fully functional FtakAristarchy which is the only type of governance that deserves the name of real democracy, for being a direct and fully participative Digital Assembly Democracy, instead of an easily corrupted, distant and outdated representative fake democracy.

Be conscious of the SoulCap Supreme pan-cosmic force

Our new acronym SoulCap means: Spiritual Omnipotent Uniting Loving Creation Aether Power. This Aether is the main realm to which we belong, as we are not mainly a human body having a spiritual experience, but mainly spiritual beings having a temporary human experience in a body on planet Earth. Hiding behind the beauty of all forms of creation, there is an immense good force, the one that we can call SoulCap that **creates**, by giving their good basic forms to all things, and animating all living beings in each their own respective beautiful specific way. We humans are each a little spark of that omnipotent and creative good cosmic aethereal force.

As such, we are part of something much greater and much more beautiful than our visible physical bodies. Calling this force “GOD” is too generic, even if it is surely an omnipotent power of some kind of divine nature, but this GOD term may easily have misleading religious institution

connotations. Some ancient philosophers have called it the “**Fifth Element**”, or sometimes more simply the “**Aether**”, which is closer to what it really is, because the invisible **Aether** is certainly its real realm of operation. Some scientists have called it the **Non-Empty Space** without knowing what is in it. They also called it unfairly the **Black Matter**. But in such cases, under all these names, it is only a way to derive its existence and its realm of operation instead of a description of its real nature. This is why we have coined the new [SoulCap](#) acronym.

In our context, living in [FtakAristarchy](#) (with the pursuit of full [Kallos](#) Beauty and “**Full-Truth-All-Knowledge**”) means living in harmony with that omnipotent good creating force that can only produce beauty, civic harmony and liberty. But we, human beings, were created by that [SoulCap](#) supreme force with free will. Consequently, as a choice, or because of our bad initiatives or selfishness, we can often easily live in disharmony with this good creative force.

This is why our world is so full of ugliness and disharmony in so many places at the moment. Becoming conscious of this [SoulCap](#) supreme force, and living in harmony with it as much as possible, is part of the new discipline and holistic education of the Pythagorean [Tetractys](#) of the human soul when living in [FtakAristarchy](#). With it, in harmony with it, we can reach maximum levels of our respective talents, and achieve best possible wellness, meritorious justice and happiness in our personal and our civic life. This is what we also call the “**Great Return Of Philosophy and Beauty**” in our life, or the “**Sacred Marriage of Philosophy With Science**”.

Be conscious of the consciousness of the universe, and of yours for it

The above [SoulCap](#) force is a reflection of the fact that the universe is a living conscious entity along with each part of it, including our planet Earth. Regarding us human beings, it is particularly important in the case of this beautiful planet Earth on which we are called to make a human experience and contribution to creation of [Kallos](#) beauty for a while.

On our planet, each component has a level of consciousness, down to the atomic level with which we can communicate as co-creators. Each component of our biological system in our body is also a conscious entity. We can and must talk to all these conscious entities of our organic organs, from the subatomic to the pan cosmic level, and do so only positively with love and gratitude for the nature’s wealth and beauty we are being offered to work with positively, forming our own best possible [Torus](#) of positive energy as a [PICCOB](#), during our short existence, and contributing to the best possible [Torus](#) of positive energy of our family, city and planet.

This is our mission on this planet, each of us at our own level of capacity and merit. This love dialogue with each part of us is also the only way to be and stay in perfect health, and in an overall state of wealth and beauty on the basis of our own merit. Not having such dialogue of love, and using our freewill for having a negative consciousness of absent gratitude or love, let alone hate, is the source of all sickness and national or personal problems. It is also the source of our problems at a worldwide level on the basis of the bad cumulative contributions all of us may provide from our own bad personal [Torus](#) to the overall good [Torus](#) of our city and planet Earth.

In [FtakAristarchy](#), the above is an eminent part of the holistic education of the Pythagorean [Tetractys](#) of the human soul for achieving best possible wellness and beauty in our personal and civic living. Again, this is what we call the “**Great Return of Philosophy and Beauty**” in our life.

Become a Co-Creator of Beauty as a PICCOB

This is the ultimate goal and sense of our life on Earth as a spiritual entity experiencing temporarily a human experience. We potentially can all be a [PICCOB](#) (Promethean Idyllic Co-

Creator Of Beauty). This is the only way to achieve a worth living human live and what we call happiness on this beautiful planet.

Have enlightened people act together to have absolute unlimited power

At the moment, by plan, and in spite of the sophistication of the current technology of communications, most common people around the world are being kept under ignorance, and consequently under full submission to an evil elite. They listen to only mainstream television, and read only mainstream media that are all fully controlled by the evil [FastCABAL](#) elites governing them worldwide. They are fully enslaved without noticing it. They are kept in fear by political correctness and minimum freedom of opinion. Their **Overton Window** of open discussion has been reduced to a historical minimum. They obey silently to any stupid command, like the imposition of [face masks](#) for the fake [COVID](#) crisis has well demonstrated.

With the cumulative effect of the reforms expressed by [Rule 1](#) to [Rule 9](#) of the new [FtakAristarchy](#) governance promoted by this book, things can change completely. People can gain absolute power and fully neutralize and dismantle their enslaving [FastCABAL](#) elites. Following these rules, people can first of all get absolute **“Full-Truth-All-Knowledge”** along with Full Transparency in all public affairs and money. **First and foremost, no lie about public affairs can exist except as a serious crime.** People can enjoy absolute full liberty of speech and opinion, even for hate speech expressed without physical violence. Practically all confidentiality or secrecy hiding from them useful information is eliminated, even in diplomatic relations.

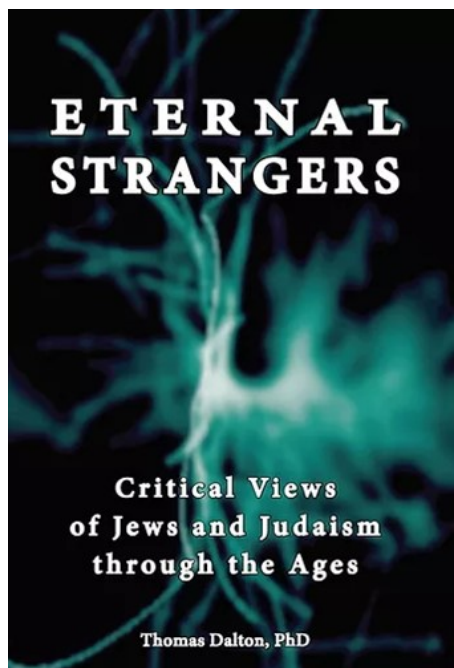

In fact, in [FtakAristarchy](#), all the most important knowledge useful to humanity that is kept in the most secret places, like in a [DUMB](#) (Deep Underground Military Base) or the caves of the **Vatican**, is all revealed and made public. In addition, not one single penny of public money is received or spent by the state without being easily traceable by all citizens as if it was in their own bank account. The government taxes its citizens at the lowest possible level, only on sales and property, without income tax, and runs the country without any public debt. People also acquire a better critical mind to assess what is going on in the country through a new holistic education of the 3 levels of the [Tetractys](#) of the human soul. Finally, people are provided with the most perfect fraud less voting system called [BAVAD](#).

The resulting cumulative effect of all the above reforms and rules of [FtakAristarchy](#) means citizens finally have what they need to control all aspects of their destiny in the best possible way and with maximum liberty. These new enlightened people command easily through **“Full-Truth-All-Knowledge”** and **Full Transparency**: they are many, while their old enslaving [FastCABAL](#) elites are only few, even when counting all evil elites at both the national and the supranational levels.

If such well enlightened citizens act together, they get absolute power over what is going on in the country. As such, they can first dismantle most easily the national and global enslavement in which they are caught at the moment. They can also impose a much better respect of all nature as it was created, in order to get from it the best possible natural resources and a healthy natural living. In addition, they can give themselves the very best possible social decorum to enjoy their new quality of life all together. Finally, they can govern themselves more justly and slimly through a perfect voting system, electing from the bottom, without any possible fraud, their best leading officials over them as their fully obedient public servants at the top.

As per the leading slogans of our cover page, the country of mostly enlightened and powerful citizens has gone **“From Slavery Downwards To Slavery Upwards”**, or **“From CumS to SumS”** (From Citizens Under Mass Surveillance To State Under Mass Surveillance). The country has become a [FtakAristarchy](#) on beautiful planet Earth. As for the enlightened citizens, their oneness

(as a people, as a country and as a divine entity) has given them practically omnipotent power to control their destiny in the best possible way and with maximum liberty.

Is this book wrong?

The evil deeds and behavior that the book describes are absolutely correct, but it is wrong to say the Jews are the authors of them. They are not the actions of Jews, but of those we legitimately call the [FakeJEWS](#) as those responsible for our satanic global enslavement today. These [FakeJEWS](#) are mainly known as **Zionists** today. In fact most of these Zionists are Jews, but from a deviated Babylonian satanic branch of Judaism, thus [FakeJEWS](#). [There are six categories of Fake Jews](#) from the three Abrahamic religions. The main ones are the **Zionists** originating from the conversion of the [Khazarian Empire](#) as a whole, even if its people had no DNA link at all to the real original Jews of Palestine, thus no link to the Palestinian territory. Historians have called these new [FakeJEWS](#) the **European Jews**. These are the odd Jews **criticized** below who have also created Zionist **Israel**.

It is common knowledge that Jews have been disliked for centuries—sometimes loathed, sometimes hated. But why?

Our best hope for understanding this recurrent "anti-Semitism" is to study the history: to look at the actual words written by prominent critics of the Jews, in context, and with an eye to any common patterns to might emerge. Such a study reveals strikingly consistent observations: Jews are seen as pernicious, conniving, shifty liars; they harbor a deep-seated hatred of humanity; they are at once foolish and arrogant; they are socially disruptive and rebellious; they are ruthless exploiters and parasites; they are master criminals—the list goes on.

The persistence of such comments is remarkable, and strongly suggests that the cause for such animosity resides in the Jews themselves—in their attitudes, their values, their ethnic traits, and their beliefs. It is hard to come to any other conclusion than that Jews are biologically, genetically inclined toward actions that trigger a revulsion in non-Jews. Jews have always been, and will always be, eternal strangers.

Eternal Strangers is a profoundly important book. It addresses the modern-day "Jewish problem" in all its depth—something which is arguably at the root of many of the world's social, political, and economic problems. The matter is urgent; we haven't a moment to lose.

These [FakeJEWS](#) are those we should disobey today to avoid our global enslavement while being [PICCOB](#) creators and [FTAKAP](#) promoters of a new era of [Pax Ellinika](#).

FtakAristarchy Great Restart assisted by JesUniverse

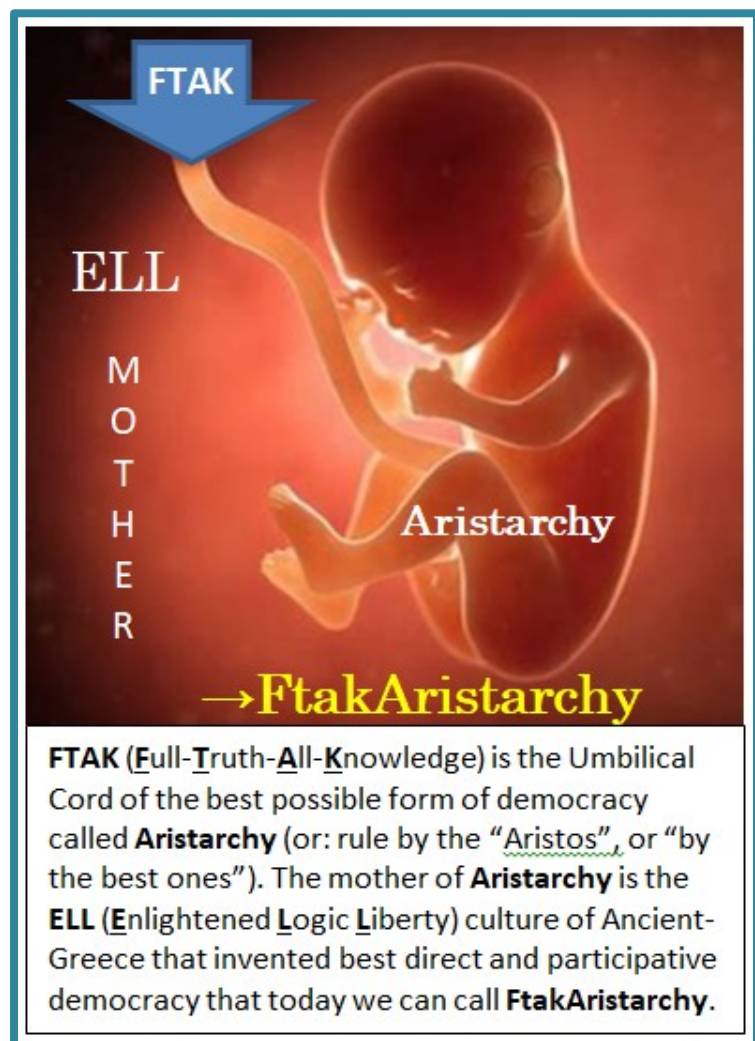

[FtakAristarchy](#), implemented following a general consensus through the [FtakAGPA](#) populist movement promoting it, assisted by [JesUniverse](#), means a new democratic **Great Restart** with the best possible form of direct and participative [democracy](#) as invented in **Ancient-Greece**.

- There is no reason, except our own stupid neglect and ignorance, for so many human beings on Earth to suffer misery for lack of good debt-free money.
- There is no reason, except our own stupid neglect and ignorance, for so many human beings on Earth to suffer disease for lack of good natural plant medicine.
- There is no reason, except our own stupid neglect and ignorance, for so many human beings on Earth to suffer bureaucratic enslavement for lack of a perfect voting system used by fully enlightened voters for producing best possible democratic elections.
- There is certainly no reason, except the evil interests of our current corrupted politicians, why we cannot be given the tools to prevent us from living in a situation of stupid ignorance at the source of all our main problems, as it is sufficient that we collectively decide to impose to our leaders the need to act by only **“Full-Truth-All-Knowledge”** and a **Fully Binding Contract** that shall give us a best possible governance of [FtakAristarchy](#).
- And the list of our actions and behavior of stupid neglect could go on ad infinitum.

FTAK is the essential Umbilical Cord of the Great Restart of FtakAristarchy.

Without the umbilical Cord of [FTAK](#) (Full-Truth-All Knowledge) as its basic main meaning (or: Full Truth And Kallos as an alternative meaning, where [Kallos](#) means holistic beauty of body, soul, mind, social behavior and physical environment all together), no real democracy can even be born, certainly not an [Aristarchy](#) (rule by the **“Aristos”**, or: *“by the best ones”*). This is why [FTAK](#) is the prefix of the new acronym of the best possible form of direct and participative assembly democracy that, in our context, we call [FtakAristarchy](#).

The mother of the [FTAK](#) Umbilical Cord to whom it is attached is the culture of the “Greek” (**ELL**enic) people. They are the ones who invented the best possible form of democracy, the one based on the [ELL](#) (Enlightened Logos Liberty) philosophical culture of Ancient-Greece. That [ELL](#) culture

in relation to the birth of real democracy means, by definition, the umbilical cord of [FTAK](#). Like for a person to be born, without this essential umbilical cord, there is no way for [Aristarchy](#) or [FtakAristarchy](#) to even be born. The fake democracy that we have today has nothing to do with such best form of democracy, and it must be replaced by [FtakAristarchy](#) and its [NIFMA Way](#).

A Great Restart based on a previous five Great Stops.

Any **Great Restart** would fail if not preceded by an immediate preliminary **Great Stop** of 5 things at the base of our national and global enslavement.

1. Stop to obedience or submission to all commands from any international or transnational unelected and unaccountable entity of fake power like, typically, for example, from the [UN](#), the [WEF](#) or the [IMF](#), let alone the [EU](#).
2. Stop to the creation of money as debt by private banks. In [FtakAristarchy](#), the country has no public debt and cannot have one. Money is created only as debt-free by the [NAMA](#) treasury on the basis of a strict set of constitutional norms, rules and limits.
3. Stop to constant useless wars created only to enrich the [FastCABAL](#) elites. With access to **Full-Truth-All Knowledge**, and **Full Transparency** of public money, wars cannot be created through false flags for the exclusive profit of the Cabal. At the moment, most wars are useful only to the [FastCABAL](#) enriching itself before these **useless wars** (financing the purchase of arms as public debt), during these useless wars (financing the war operations) and after these useless wars (financing the reconstruction).
4. Stop to fake social conflicts and chaos created by the [FastCABAL](#) while being able to blame the mess on “others” in order to enrich itself discretely in the background. Pushing for massive totally inassimilable immigration on the basis of the [Kalergi Plan](#) is a typical means of this strategy to create useless social conflicts. As a result, during the chaos periods this will inevitably cause, many members of the productive middle class will go bankrupt or decide to leave the country. Then the Cabal will acquire an immense quantity of newly bankrupted properties for very cheap money while being able to blame the new misery on “others”, like on the massive immigration of Muslims.
5. Stop to fake pandemics creating bankruptcy for the enrichment of the [FastCABAL](#). In a similar way, the current Cabal creates false pandemics, as new **plandemics**, in order to enrich themselves discretely in the background, while putting the blame on the pandemic instead of on themselves (the Cabal). For example, the fake [COVID](#) plandemic has made the [FastCABAL](#) to transfer easily to themselves over 5 trillions of dollars of good property, in the [USA](#) alone, from the best productive middle class gone bankrupt.

The above quintuple preliminary **Great Stop** initiatives must then be followed by a great series of initiatives for a successful **Great Start** of [FtakAristarchy](#).

More on the major initiatives necessary to avoid any future enslavement

Again, to start with, money created today as debt-money, instead of as debt-free money, in an unlimited debt way, out of nothing, by private banks, is the mother of all scams at the root of the creation of all worldwide misery, disease, wars and enslavement. This illegal anti-constitutional scam is a supreme power acquired illegally by private banks, and only because of our most stupid negligence. Eliminating first this fake private power is not only possible, but in fact very easy, as it was fully illegally granted to start with. Doing it to start with, means eliminating most misery, most diseases, most wars and most forms of undemocratic enslavement around the world.

National public debt has not always existed, even during most prosperous economic periods in many countries before 1913, and has absolutely no need to exist today. It can be all eliminated instantly through starting creating only debt-free money, issued by the treasury instead of by

banks, under a set of strict limits and norms from a good constitution. No injustice to the banks would exist, as most public debt (that should have not been created in the first place through useless loans) has been reimbursed many times already through interests over previous decades.

With the elimination of public debt, income tax has also no reason to exist, as it was created to reimburse a public debt that will no more exist. It can also be immediately abolished. Government financing for public infrastructures and services can, and must all be done through only property tax and sales tax. As for sales tax, it can be shared on both sides of the transaction, and it can also be combined to the only way to accumulate credits for an eventual public pension. This link to pension credits makes its payment highly desirable, and means the near total disappearance of the black economy market affecting unpaid sales tax at the moment.

Except temporarily during criminal investigations, all public affairs of governance must all become exactly that: public affairs, never confidential or secret affairs. Every single action of governance must be fully public. The public money in particular, must all be seen by all taxpayer citizens as if it were their own bank account, seeing all movements in and out to the single penny. Even diplomatic relations with all foreign countries must be all conducted openly, as public, even in the invited presence of observing national journalists. Secret negotiations about public affairs become a crime of the negotiators, and cannot legally take place in [FtakAristarchy](#).

Most embassies abroad must be eliminated, as they were necessary only before the cumulative [TATATVIT](#) (Train, Automobile, Telephone, Airplane, Television, Video, Internet, Telecommunications) inventions. Few useful ones may still exist temporarily in special circumstances.

The technology for a perfect fraud less voting system exists and is much easier to implement than the technology necessary, for example, to go to the moon. If it has not yet been implemented, it is only because corrupted politicians prefer the loose systems from which they can manipulate elections and produce fake results to their advantage. Under a possible perfect electoral system, like the [BAVAD](#) system of [FtakAristarchy](#), all citizens must be obliged to vote to maintain citizenship. Citizens vote not for a program, but for a fully binding contract. Consequently, there can be no fraud and no surprise during a mandate in terms of new legislation or taxation not already mentioned in the last winning electoral contract.

With the perfect [BAVAD](#) electoral system, and the voting for only a fully binding contract, the same logic that justifies the elimination of embassies also applies for the eliminations of the current unnecessary huge parliaments of useless babbling corrupted representatives. With the current perfection of telecommunications, and a government under a fully binding contract, we do not need any more any kind of representatives in a parliament. What is discussed uselessly today in a parliament at great costs can be discussed free of charge on new special TV channels.

Consulates abroad are different from embassies. They must not only survive, but be reinforced for two new main tasks. First, they must assist much better than now the growing number of citizens travelling abroad and in difficulty while abroad, including for voting purposes. Second they must become a major tool to impose a preselection from abroad of all potential foreign candidates as immigrants or political refugees. In most cases, as much as possible, the decision to accept them must be taken while they are still abroad, before their arrival, and those refused must be prevented to come into the country as much as possible, and deported if they do. Politicians with no more a babbling parliament for useless political conflicts are still needed, but mainly for formulating a new fully binding electoral contract to compete in the next election.

This is their only new official function. The babbling activity they have now in parliaments at useless extreme costs can only take place for free, in television talk shows, and in debates between the various shades of the political spectrum, in front of all citizens of the country.

All politicians and bureaucrats are also forced to not lie at all about public affairs. Otherwise, they commit a new serious crime. A lie about public affairs is no more just a lie, but a serious crime punished most severely (up to death penalty if it caused massive damages and/or deaths).

Even when a lie about public affairs comes from a journalist or any private citizen not holding any public position, it is also a serious crime. But hiding a truth about public affairs, by voluntarily not providing **Full-Truth-All Knowledge** about an activity or an expense, is also considered a lie by omission. All public affairs become based on only **Full-Truth-All Knowledge**.

By enjoying **Full-Truth-All Knowledge** about all public affairs, citizens are also in the best possible position to vote correctly in the next election, and to enjoy the best possible electoral results while using the above new perfect fraud less [BAVAD](#) voting system of [FtakAristarchy](#).

Be it clear that **Full Truth** is not sufficient to enjoy the best electoral results of the perfect new fraud less voting system. **All Knowledge** about any kind of information useful to the citizens, or to humanity as a whole, be it to protect it or to help it, is also necessary. **All Knowledge** must be all fully revealed, be it from a human or an alien source. Just like a lie about **Full Truth**, keeping such useful **All Knowledge** secret also becomes a serious crime. Even the most secret military bases are not allowed to keep secret such information or knowledge when useful to all.

Full-Truth and **All-Knowledge** are also complemented by **Full Freedom of Opinion** not based on an invented lie, even for expressing hate or only an embarrassing conviction. The new Internet called [FtakInternet](#) is provided with **Full-Truth-All-Knowledge**, and **Full Freedom of Expression**.

Any type of censorship preventing access to **Full-Truth-All-Knowledge** becomes a serious crime. Expressing hate based on facts, or on real convictions, is no more a crime, while censoring it becomes a crime. Any citizen with good logical reasons not based on a lie can criticize fully freely any person, any country, any race, any religion or any national or international organization.

No internet platform, or social media, or mainstream media not respecting these rules will be allowed a required operational license. This is true in particular when blogs or media receive [BigMoney](#) from rich donors that can influence their independence. All mainstream media cannot legally join an international network that prevents them to compete fully independently with all other media on only a basis of **Full-Truth-All-Knowledge**, and **Full Freedom of Speech**.

All media must be able to finance their operations without outside [BigMoney](#) disturbing their independence, only on the basis of their ability to provide best **Full-Truth-All-Knowledge**. Those not able to compete on such basis will soon fully deserve their going out of business. On a national basis, in [FtakAristarchy](#), many more improvements will take place to help the personal or the social life of citizens. For example, [married citizen mothers \(or some fathers\) with minor children](#) will receive a small public salary as a [MaMoHoMac](#) if they accept to take good care on a fulltime basis of a family home instead of going out daily for a salaried job.

Married couples with no more a normal sexual relationship, but not affected by any form of violence, will have a new legal form of discrete pre-divorce legal agreement called [DISSLA](#), with some compensating financial assistance, for having a separate discrete sexual life if they accept

to go on living together in the same family home with a good friendly relation while they have minor children. Governance will facilitate and help financially the regrouping of extended families when capable of helping better this way each other. Same sex relations will be accepted as normal if only soft gay GOMAOKS, i.e. not involving violence, anal sex or pedophilia.

All school instruction will take place with concomitant real holistic education of the body and the various levels of the Tetractys of the human soul.

All interpersonal conflicts will get new easy and fast justice through a new form of constructive justice at very limited costs and with a choice of not using lawyers.

The new military service will be based on only best forms of defense and national survival in difficult conditions of wars or disasters, with the acquisition of best skills for work and protection of city animals, and absolutely no possible kind of interference in other countries for any reason.

Beauty based on best Greco-Roman values of Kallos and Philotimo, instead of Judeo-Christian values, will transform and improve the better appearance of most private and public places.

BigAgri will be eliminated in the country, with a preference to food and farm products being produced by good traditional family farms, and distributed tax free on open street markets or in special food outlets called LAFIOS at zero kilometers away from their source whenever possible. This will bring a major improvement to the good health level of all citizens of the country.

A new medicine will be recognized and formalized to replace most of the current BigPharma chemical ***Disease Medicine*** with real ***Health Medicine*** based mostly on natural plants.

The death penalty is eliminated for interpersonal crimes usually causing the death of one single person. It is however established or maintained for serious crimes involving massive deaths or massive damages. It can be applied even when the massive damage is caused by only the lie of an official or a private company manager about producing dangerous tools, like fake vaccines bioweapons or useless wars, when they cause massive damages and/or massive deaths.

Above the national level, there is absolutely no need to be forced in any way to accept any norm, certainly any command in particular, of any kind, from any international or transnational GURUC (Global Unelected Red-technocratic Unaccountable Cabal) official or entity of fake power. Good relations with all such entities can still well exist on a mutual profitable consultation basis when required if they can take place with ***Full-Truth-All-Knowledge*** and ***Full Freedom of Expression***. Related expenses can even be shared, on an agreed ad hoc basis when necessary, but no formal membership will ever exist with such unelected and unaccountable entities not run on a basis of ***Full-Truth-All-Knowledge*** and ***Full Freedom of Expression***..

On a more long term basis, there will also be the promotion of two new forms of language:

- one at a chat level (GLOSAN, an improved form of Esperanto), and
- one at a formal level (using the higher Katharevousa level of Greek language) in best interpersonal language communications worldwide.

The Greek language has had a well-documented superiority over all other western languages for more than 5000 years. Its use will not only improve immensely the quality of all interpersonal communications, verbally or in writing, but also replace the invasive and imperialistic English language that is not only much inferior in sophistication, but is so much disliked by a great and growing number of the people of so many countries around the world.
