

TetractArium

Arium Governance of a TruthOcracy

- Governing Trias Politica (but not like Montesquieu's) in normal circumstances: **P+G+T**
- Governing Tetras Politica (with a 4th State Power) in special circumstances: **P+G+T+L**
- Administering Pentas Politica (with a 5th) for overall routine governance: **P+G+T+M+J**
- Absolute power for Truth over Ariums **P+G+T+M+J** information = **O** (OtatfogArium)
- Absolute power for Truth over non-Arium public information = **T** (TinformArium)
- Absolute democratic commanding power of "Have Down Rule Up" = **S** (SPELArium)

PythagorArium: an institute promoting EL Civitas, ELducation and TruthOcracy, or a better civic life based on a modern adaptation of the ancient philosophy of virtues of the "*hELlenistic*" culture of the "*ELlinas*", which must include, today, cumulatively:

- + **EthoPlasin** (improved holistic ELducation based on the formation of the *Pythagorean Tetractys* of the human soul)
 - + **EthoCracy** (better democracy (EthoKratia / TruthOcracy) & 10 EthoPrinciples + the *Return of Philosophy* in our life)
 - + **EthoSpeak** (at 3 levels: *Better National Language* + EthoGloso Auxiliary Language + Katharevousa Master Language)
- = **EthoLiving** (or: TruthOcracy when fully implemented)

TetractArium Governance of a TruthOcracy

1. An Arium is an area of governing competence. An Ariant is the head of an Arium. An Arion is a managerial staff, or institution (like a MinistArium), under the command of an Ariant.
2. The real novelty of the TetractArium is mainly the combined forces of 3 of the new *State Powers*: the SPELArium, the OtatfogArium and the TinformArium. SPELArium means Sovereign People Enlightened Liberty Arium. The BELT enlightened electors, through BEC, ELducation, and Truth OTATFOG compliance of all Ariants, fully control, from the bottom of the pyramid, the obedient Truth Governance at the top. The OtatfogArium fully controls **L+P+G+T+M+J**, (not **S**), but only for full Truth Compliance: it can dismiss non-complying Ariants sovereignly (the OtatfogAriant by himself, or through a guiferendum when contested by the SPELArium for a claimed mistake), responding only to the people. The TinformArium does the same Truth job for all non-Arium information circulating to the public in the country through any media.

3. Each [Arium](#) is watched for operational correctness by another one (See [Arium](#) list at the bottom). This is in addition to the master watching role of the [OtatfogArium](#) for [Truth](#) compliance in activities of all [Ariums](#) except [SPELArium](#) (that watches [OtatfogArium](#), and is watched by [LeaderArium](#)).
4. The willing ex [Ariants](#) (non-[L](#)), if they so wish after mandate, form the [L](#) ([LeaderArium](#)).
5. [Trias Politica](#) (in [red](#)) runs daily operations. [Tetras Politica](#) ([red](#) + [green](#)) runs in special circumstances. [Pentas Politica](#) (5 triangles around [OtatfogArium](#)) administers normality.
6. The main level, of the 6 triangles +[S](#), have [ProAriants](#) in 10 provinces (7+70 = 77 [Ariants](#)). [OtatfogArium](#) is alone as [Ariant](#) 78. [MinistAriants](#) are 8 only, + their [CabinetAriant](#): 9 [Ariants](#) for the [CabinetArium](#). [VotArium](#) uses 2/3 *qualified* majority that includes [CabinetArium](#) (78+9=87) = 2/3 of 87, +1=59; Simple ½ non-[VotArium](#) majority: ½ of 78, +1=40. (59 or 40 are necessary)
7. Secondary level [Ariums](#) are headed by an appointed [Arium](#), not an [Ariant](#), and do not participate in any voting in the [TetractArium](#).
8. [ProtectArium](#) includes [MilitArium](#). [MonetArium](#) includes [NamArium](#). [TinformArium](#) includes [OppositArium](#). [JudicArium](#) includes [ExpertArium](#). [OtatfogArium](#) includes [VotArium](#) and [DomArium](#). Total managers of [TruthOcracy](#) = 87 (78 [Ariants](#) +9 [CabinetAriants](#)). These 87 manage all the [TruthOcracy](#) without elected chambers as with a [BEC](#), there can be no surprise after election in terms of legislation or taxation.
9. The [LeaderArium](#) [L](#) selects its own new [LeaderAriant](#), by itself, whenever it wants, but forcefully just before an election. It can change the Constitution easily via, first, a [VotArium](#) 2/3 majority vote, *plus*, second, a [quiferendum](#) approving it at 51+%. It pre-screens the validity of constitutionality issues being raised and, if considered valid, passes them to its [ConstitArium](#) for final settlement. It prohibits all foreign [NGOs](#) and no lobby outside the [TinformArium](#).
10. Just before an election, 4 other small triangles, [P](#)+[T](#)+[M](#)+[J](#) (excepting [G](#)) preselect each 3 candidates, from their own ranks, as their own possible next [Ariant](#) and have all 3 candidates pre-approved by a 40 majority of the 78. Then, just after [G](#) election, one of these 3, in each of [P](#)+[T](#)+[M](#)+[J](#), must be chosen/accepted by the newly elected [GovernAriant](#) as his preferred acting [Ariant](#) of these 4 [Ariums](#) during his mandate.
11. The [SPELArium](#) includes the [PolArium](#), as the police force belongs to the people, not to the *Executive*. The [PolArium](#) can only protect the people. [Arium](#) officials can only be protected by the [MilitArium](#), not by the [PolArium](#). However, the [PolArium](#) can also be used if necessary for forced dismissal of [Ariants](#) (except [L](#) and [S](#)) for non-[BEC](#)/[SPEC](#)/[Truth](#) compliance, without the [MilitArium](#) being allowed to intervene.
12. The [GovernArium](#) includes the [CabinetArium](#) (8 Cabinet “*Ministers*”, called [MinistAriants](#), with their [CabinetAriant](#) being like a kind of “*Prime Minister*”). It has a core of permanent staff, like all [Ariums](#), but also a core of permanent staff for each [MinistArium](#). They then all can use extra support staff from all other [Ariums](#) as appropriate when necessary (see the above table) under the coordination of the [DomArium](#). Support staff structure is light and partly moveable.
13. The [GovernArium](#) also includes the [LegisArium](#) because any new legislation can only be elaborated within the strict limits of the [BEC](#) (Binding Electoral Contract) under [OtatfogArium](#)/[SPELArium](#) surveillance. There can be no surprise after election: no *new* legislation or taxation.
14. In addition to the permanent specialized staff or his [Arium](#), each new [Ariant](#) but [G](#) can bring-in maximum 3 new assistants to manage the permanent staff of his [Arium](#). The [GovernAriant](#) ([G](#)) brings 5 for 9 [CabinetAriants](#) (45), and 15 for himself: total 60, all under contract for the time of his mandate. Some may apply to become permanent after mandate, if approved by a 40 majority of the 78 non-[VotArium](#) [Ariants](#).
15. People elect only 3 persons: the [GOS](#), which is the [GovernAriant](#) ([G](#)) and, independently of him or his party, the [OtatfogAriant](#) ([O](#)) and the [SPELAriant](#) ([S](#)). The [OtatfogAriant](#), in a general election, matches bio-anonymous voting-rights (*electronic*) with voting (*only paper*) by -1%, or calls another [GOS](#)selection.
16. Election candidates for [G](#) are expressed only by each of the 10 political parties (if they so wish) with the highest membership. If there is no 51% majority for one of them, the 2 highest candidates go to a second tour of elections for the final [G](#) winner with 50+%, two weeks later.
17. Three candidates for [O](#) are expressed, 1 by each of [L](#)+[P](#)+[T](#), external to their own ranks (either from another triangle or from the prominent figures of society) after pre-approval by a 40 majority vote of the 78 [Ariants](#). All 3 become candidates, for a winner in the general election.
18. In a similar manner, three external candidates for [S](#) are expressed, 1 by each of [L](#)+[M](#)+[J](#), then approved and voted *mutatis mutandis*.
19. An election requests all citizens to vote (for up to ten [G](#), three [O](#) and three [S](#) *persons*, not parties), and to vote, or pay a contravention.
